Elasticated Chinstrap

Conformity:

When fitted to JSP Industrial Safety Helmets, meets the requirements of EN397.

When fitted to JSP Industrial Bump Caps, meets the requirements of EN812

Weight:

0.018Kg (weight is approx.)

Materials:

Webbing: Nylon and Elastic

Clips: LDPE

Chincup: Nylon

Instructions For Use:

Insert clip upstand through chinstrap attachment points on shell ensuring it points away from the head. Fold over and close the clip around the attachment points and push the upstand through the corresponding hole in the other end of the clip until it shuts fully. Fit the Head Protection Device in the appropriate manner, then fit the chinstrap underneath the chin and seat as required on it.

Limitations Of Use:

The attention of users is also drawn to the dangers of modifying or removing any of the original component parts, other than as recommended by the manufacturer. The chinstrap, when in contact with the skin may cause allergic reactions to susceptible individuals. If this occurs leave the hazard area, remove the cap and seek medical advice.

Important Notes:

- i. This Chinstrap should only be fitted to JSP Head Protection Devices.*
- ii. A JSP Chinstrap is a single fitting only, removal once assembled to a Head Protection Device will damage the chinstrap clips.*

Cleaning & Maintenance:

The chinstrap may be cleaned with soap and warm water and dried with a soft cloth. The chinstrap should not be cleaned with chemical or abrasive cleaners. When fitted to a Head Protection Device, the unit should be stored out of direct sunlight, away from chemicals and not exposed to extremes of temperature.
